

MEMORANDUM

TO: DEVELOPMENT COMMUNITY

VIA: CHRISTOPHER STEUBING, P.E., CFM, CITY ENGINEER

FROM: ROBERT VALENZUELA, P.E., CFM, ASST. CITY ENGINEER *RV*

DATE: AUGUST 5, 2010

SUBJECT: DESIGN STANDARDS AMENDMENT NO. 4

Per recent City Council action, the following amendments have been made to the City of Sugar Land's Design Standards. The creation of Section 9.0 regarding the city's guidelines for best management practices, the addition of standard construction details regarding commonly used best management practices utilized during construction and the creation of a land disturbance permit. The permit (free of charge) should be completed at time of plan submittal.

In addition, the City Engineer has amended the City of Sugar Land's Design Standards as follows:

- Cover Sheet – Inserted “Amended August 2010”
- Table of Contents – Inserted “Section 9.0 Guidelines of Best Management Practices”
- Section 2.1.2 – Sheets to be included as applicable - Included the “Erosion Control Plan”
- Section 8.0 Site Development Requirements - Added page numbers.

Please share these updates with your peers and co-workers whom may be doing work within the City of Sugar Land jurisdiction.

Please go to the City of Sugar Land website and check the Engineering Department's page. On the left you will see a link for the Design Standards. You will be able to download all standards and details in PDF format. If you have any questions, please contact the Engineering Department at (281) 275-2780.
